(d) Inspection/Acceptance. The Contractor shall tender for acceptance only those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. The Government must exercise its postacceptance rights--

(1) Within a reasonable period of time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(e) Excusable delays. The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence, such as acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(f) Termination for the Government's convenience. The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges that the Contractor can demonstrate to the satisfaction of the Government, using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor

shall not be paid for any work performed or costs incurred that reasonably could have been avoided.

(g) Termination for cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(h) Warranty. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

## SPECIFICATION FOR AUTOMATIC SPRAY MACHINE

The Contractor shall furnish an Automatic Spray Machine designed for fully automated coating application as called for in ASTM D823-95, by use of user supplied conventional or High Volume Low Pressure (HVLP) spray equipment. Specifically, the unit shall be capable of controlling:

- Dynamic coating thickness – the ability to automatically change coating thickness through one pass of the spray heads
- Overlap between coats
- Air pressure supplied to spray guns – including atomizing, fan, and fluid air pressures for all guns

The automatic spray machine shall operate independently after the spray characteristics have been input (i.e. no user input is required during spray operations).

**Computer integration:** Shall have an integrated control interface with the capability of uploading all configuration and process data to a PC.

**Spray Area:** Automated application area shall be at least 2 feet high by 4 feet wide.

**Test Versatility:** The automatic spray machine shall be configurable to apply full coating systems consisting of multiple coats of at least two coatings. In addition, the unit shall be fully programmable to allow for variable flash and cure times as required.

**Explosion Proof:** Shall be explosion proof in order to meet OSHA safety standards for work with common coating solvents (e.g. mineral spirits, butanol, toluene, etc.).

**Mobility:** Shall come equipped with a wheeled base for simple repositioning in the laboratory.
